

## REPORT FROM WBDE PROCEDURAL FAIRNESS & NATURAL JUSTICE PANEL

28th Dec, 2005

To Whistleblowers Documents Exposed,  
PO Box 140,  
NEWTOWN 2204

Dear WBDE

Thank you for supplying the documents and giving us the opportunity to put our judgements earlier.

We agree with Mr Ross Coulthart, from Nine Network Australia Pty Limited (Channel 9):,

“All too often in Australian public life, people with the courage and the decency to raise concerns about something you, the public, should know about get shafted for their trouble. All too often, whistleblowers suffer terribly because their honesty, their motives, even their sanity gets questioned by the institution that’s under attack.

TAFE’s treatment of Mrs Kerrison appears to be a particularly savage example extending over more than a decade.

Due to the apparent failure of those responsible to rectify injustice, even at this late date, in the public interest we now set out our judgement more fully.

We carefully studied the sequence of events as shown by the documents. We were appalled at the apparent denial of simple justice to Mrs Kerrison made up of many instances compounding on each other, increasing exponentially over the years.

We formed the opinion that, and hereby judge, based on the documents and lack of any defense by TAFE , Crown Sols, lawyers, HealthQuest, Premier Carr, Health Minister Iemma etc, there was a concerted effort to cause serious damage, or worse to Mrs Kerrison over more than a decade, and willful blindness (at least) to allow it to continue.

We applaud the way that you have so thoroughly informed all of the parties. The procedural fairness you demonstrated in this project is exemplary to the extent that, even if the parties were all ignorant of the requirements of procedural fairness previously, they were now fully informed, and had now participated in this basic human rights entitlement through a just, ethical process.

We understand that none of the parties have attempted to apply procedural fairness even at this late date, yet most are public servants and therefore have received, and it is presumed that they kept, thousands of dollars of public money to serve the public.

Unfortunately it cannot be assumed that those parties contacted will suddenly, now apply justice along with ethical behaviour and human rights. Therefore we summarise the chronology presented in the bundle of documents and look forward to the world-wide publishing of it all.

We believe that the parties listed in items 1-4 of your letter are so comprehensive that if there was any evidence whatsoever of procedural fairness being accorded to Mrs Kerrison from January 1995 to the present day it would have emerged.

We note that the bundle sent to us now appears in updated form (Null and Void applied where applicable) on the WhistleBlowers Documents Exposed site at [http://www.wbde.org/documents/2005\\_Jul\\_18\\_WBDE\\_Procedural\\_Fairness\\_Panel\\_Documents.php](http://www.wbde.org/documents/2005_Jul_18_WBDE_Procedural_Fairness_Panel_Documents.php)

Using that List on Page 12, our judgements etc on the sequence of events and decisions are as follows:

**1. 1994 Aug 05 - Ramsey to Wells. Grievance. “teacher gave herself 100% exam results...”**

We treated this as background to Mrs Kerrison’s grievance. We note that this appears to be false entries in public register as set out in the Crimes Act

---

**2. 1994 Nov 27 - Letter by Aboriginal Michael Smith Ex 3 (15)**

We treated this as background validating that there were others also expressing concerns about the management within TAFE and probably evidence of racial vilification. Seemingly this put Mrs Kerrison in danger of a corrupt management taking the easy way out to make themselves look good – discredit and get rid of the internal reporter (Mrs Kerrison)

---

**3. 1995 Jan 17 - TAFE Managing Director Dr Ramsey memo to Dr Gary Willmott. Kerrison to “HealthQuest” Ex9**

We judge that this decision was made and carried out in secret by Dr Ramsey, Dr Willmott and Ms Walshaw. We judge this decision to be gross and abhorrent; that these personnel, apparently out of thin air (other than the criminal acts and racial vilification that Mrs Kerrison reported), misused their power to cause Mrs Kerrison harm. They decided and urged that Mrs Kerrison’s personal and private thoughts be ‘assessed’ through forced psychiatric process at HealthQuest. This is possibly trespass, assault, and we judge it to be sufficient to show intent to cause her harm.

As TAFE appear unable to supply evidence to the contrary it is assumed that Mrs Kerrison’s health and performance of her TAFE duties was exemplary.

We judge also that it was readily foreseeable as likely to cause serious harm to Mrs Kerrison personally and to her family and associates. It was also likely to cause harm to her reputation personally and professionally, and therefore harming her job as TAFE teacher, denigrating the assessments she gave to TAFE students and the marks and qualifications she awarded, damaging her reputation, jeopardizing her career and career path, and likely to cause irreparable damage and harm to her to the extent where she is unable to get a job.

We judge additionally that the processes and actions of HealthQuest were likely to cause her severe shock, pain and suffering.

WE THEREFORE JUDGE AND DECLARE THAT ITEM 3, **1995 Jan 17 - TAFE Managing Director Dr Ramsey memo to Dr Gary Willmott. Kerrison to "HealthQuest" Ex9** is **NULL AND VOID** and **all decisions and allegations which flowed from this are also null and void.**

We conclude that THIS IS CONSISTENT with the documents already held by the Industrial Relations Commission in Mrs Kerrison's submissions to Justice Schmidt, TAFE lawyers, DET lawyers, Crown Sols lawyers and barristers, and following that in the Appeal Books at pages 346-349 held by Justices Walton, Staunton, Staff, TAFE, DET and Crown Sol lawyers and barristers and Mrs Kerrison's lawyers since 2003 and CONSISTENT with their apparent lack of evidence of any natural justice accorded to Mrs Kerrison to the present day.

#### **4. 1995 Apr 11 - TAFE Quinn to CRS Port Macquarie referral form Ex85 Att4 P3**

We judge that this decision was made and carried out in secret by Mr Mike Quinn in order to create some papers to generate a purported reason to carry out the HealthQuesting process set out in Document 3 above. We judge this decision to be gross and abhorrent; that Mrs Kerrison reputation was damaged through his secret [probably false] allegations without allowing her any procedural fairness or natural justice.

We judge also that it was readily foreseeable as likely to cause serious harm to Mrs Kerrison personally and to her family and associates. It was also likely to cause harm to her reputation personally and professionally, and therefore harming her job as TAFE teacher, denigrating the assessments she gave to TAFE students and the marks and qualifications she awarded, damaging her reputation, jeopardizing her career and career path, and likely to cause irreparable damage and harm to her to the extent where she is unable to get a job.

We judge additionally that the processes and actions of Mr Quinn in secretly deciding to write and circulate damaging allegations without allowing Mrs Kerrison any way to protect herself from them and the HealthQuest process were likely to cause her severe shock, pain and suffering.

WE THEREFORE JUDGE AND DECLARE THAT ITEM 4, **1995 Apr 11 - TAFE Quinn to CRS Port Macquarie referral form Ex85 Att4 P3** is **NULL AND VOID** and **all decisions and allegations which flowed from this are also null and void.**

We conclude that THIS IS CONSISTENT with the documents already held by the Industrial Relations Commission in Mrs Kerrison's submissions to Justice Schmidt, TAFE lawyers, DET lawyers, Crown Sols lawyers and barristers, and following that in the Appeal Books at pages 346-349 held by Justices Walton, Staunton, Staff, TAFE, DET and Crown Sol lawyers and barristers and Mrs Kerrison's lawyers since 2003 and CONSISTENT with their apparent lack of evidence of any natural justice accorded to Mrs Kerrison to the present day.

## **6. 1995 May 01 - TAFE Walshaw letter to HealthQuest Dr Gapper Ex 18”A”**

It was also likely to cause harm to her reputation personally and professionally, and therefore harming her job as TAFE teacher, denigrating the assessments she gave to TAFE students and the marks and qualifications she awarded, damaging her reputation, jeopardizing her career and career path, and likely to cause irreparable damage and harm to her to the extent where she is unable to get a job.

**10. 1995 May 26 - Kerrison working. Press release Macleay Argus re TAFE students and courses Ex3(9)**

We treated this as background showing that Mrs Kerrison was working, apparently to a high standard, publicizing TAFE and its managers and students – by stark contrast TAFE Managers McGregor, Walshaw, Robison, Quinn were secretly performing the decisions and acts shown in the other documents in this bundle.

We judge that this is further proof that Mrs Kerrison was unaware that TAFE was making decisions and performing actions about which she was not made aware and is therefore entitled to have those decisions and actions completely negated and the damage of these past 11 years made good.

We again speak out against those who use public money for their own purposes such as corrupt management taking the easy way out to make themselves look good – discredit and get rid of the internal reporter (Mrs Kerrison)

We judge that this decision was made and carried out in secret by HealthQuest personnel for their clients TAFE including Dr Willmott, Ms Kerry Walshaw in order to create an illusion of a forced retirement.

**18. 1995 Aug 03 - Part of TAFE Walshaw to HealthQuest Dr Gapper "copy and fax" Ex20"G"**

We judge also that it was readily foreseeable as likely to cause serious harm to Mrs Kerrison personally and to her family and associates. It was also likely to cause harm to her reputation personally and professionally, and therefore harming her job as TAFE teacher, denigrating the assessments she gave to

TAFE students and the marks and qualifications she awarded, damaging her reputation, jeopardizing her career and career path, and likely to cause irreparable damage and harm to her to the extent where she is unable to get a job.

We judge additionally that the processes and actions of TAFE and HealthQuest personnel in secretly deciding to write and circulate damaging allegations without allowing Mrs Kerrison any way to protect herself from them and the HealthQuest process were likely to cause her severe shock, pain and suffering.

**19. 1995 Sep 05 - TAFE Scuglia Release Pay Form B22166. Amends SP B22112” Ex 31**

We judge that the decision SP B22112 to stop Mrs Kerrison’s pay was a decision was made and carried out in secret by personnel under Dr Ramsey, Dr Willmott, by Ms Kerry Walshaw in order to create the illusion that Mrs Kerrison’s employment status had changed, probably to the status of “medically retired” even though TAFE managers should be aware that a forced retirement on grounds of a presumed medical/disability basis probably **discrimination under s49 of the Anti Discrimination Act**. We judge the decision to stop Mrs Kerrison’s pay to be gross and abhorrent; that Mrs Kerrison reputation was damaged through their secret decisions and actions without allowing her any procedural fairness or natural justice.

We assert that this document shows clearly that TAFE managers were well aware that Mrs Kerrison’s employment status was still officially a duly appointed full-time permanent TAFE teacher.

We judge also that it was readily foreseeable as likely to cause serious harm to Mrs Kerrison personally and to her family and associates. It was also likely to cause harm to her reputation personally and professionally, and therefore harming her job as TAFE teacher, denigrating the assessments she gave to TAFE students and the marks and qualifications she awarded, damaging her reputation, jeopardizing her career and career path, and likely to cause irreparable damage and harm to her to the extent where she is unable to get a job.

**20. 1995 Oct 05 - TAFE Walshaw to Kerrison re "...your request for information...in TAFE files"**

We treated this as background clearly showing that Mrs Kerrison was so "in the dark" about TAFE and HealthQuest decisions, documents, allegations etc; that she had to use Freedom of Information requests and pay money to obtain some of the documents. While Mrs Kerrison was working, apparently to a high standard, publicizing TAFE and its managers and students – by stark contrast TAFE Managers McGregor, Walshaw, Robison, Quinn, HealthQuest personnel Dr Jagger and Dr Mandel, Dr Holmes were secretly performing the decisions and acts shown in the other documents in this bundle.

We judge that this is further proof that Mrs Kerrison, being unaware that TAFE and HealthQuest etc, was making decisions and performing actions about which she was not made aware, is therefore entitled to have those decisions and actions completely negated and the damage of these past 11+ years made good.

We again speak out against those who use public money for their own purposes such as corrupt management taking the easy way out to make themselves look good – discredit and get rid of the internal reporters such as Mrs Kerrison.

**21. 1995 Oct 16 - TAFE to Kerrison responding to her requests for information. EX79**

We judge that these decisions being conveyed to Mrs Kerrison long after they were purportedly made, were made and carried out in secret by personnel under Dr Ramsey, Dr Willmott, by Ms Kerry Walshaw in order to harm and discredit Mrs Kerrison through the HealthQuest process. We judge these decisions to be gross and abhorrent; that Mrs Kerrison reputation was damaged through their secret decisions and actions without allowing her any procedural fairness or natural justice.

WE JUDGE THAT FROM AT LEAST THIS POINT ON THE TAFE LAWYERS AND LEGAL

DEPARTMENT held and were processing many documents clearly showing that TAFE and HealthQuest personnel and managers secretly (without procedural fairness or natural justice) made, decisions and performed actions which damaged Mrs Kerrison yet the Legal Department did not address this.

That is 10+ years that these public servants have been receiving public funds without performing their duties to the public.

**35. 1998 Jan 13 - TAFE Legal Officer Cribb to TAFE Lockwood**

We judge that TAFE solicitor Mr Cribb, was making decisions regarding Mrs Kerrison writing “seeking further material and making continued demands for an inquiry...” and the AntiDiscrimination Board.
